
There are many different providers of cell phone service; one of the more prolific is Straight Talk. Straight Talk uses AT&T's network for 3G data, which means you'll enjoy fast download speeds and seamless uploading wherever you can find an AT&T tower. But what if you travel outside the coverage area? Each Straight Talk SIM card comes with a network unlock code; enter this code into your phone to change your phone's provider to the desired carrier. In this hack you'll learn how to hack your Straight Talk SIM card. You'll need a PC with a working internet connection, a Straight Talk SIM card, and Strongly alcohol based cleaner for the phone. First, you'll need to buy a SIM card from Straight Talk (you can pay with a credit card on the website; call the number provided on the website and ask for pricing.) The store you purchase from can activate your sim card. You'll need to activate it with your Straight Talk phone number and the first 4 digits of your SSN (required by AT&T). Next, you'll need to download and install the AirDroid app from Google Play. Once you have downloaded AirDroid, log into your Straight Talk account from straighttalk.com. From there you will find a link that says "SIM Card Unlock". Click on this link and complete the appropriate information about why you're unlocking your SIM card. You can unlock your sim card from within the AirDroid app without using a computer. Simply log into your Straight Talk account from the AirDroid app. From there you can insert your sim card number and select 'Unlock'. Now, put the SIM card in the phone you want to use it in. Calling AT&T customer support at 855-247-4662, tell them that you have a straight talk SIM card and that you want to change it to another carrier. There will be a charge of \$15 for this service. Abra la tapa trasera de la tarjeta SIM y encontraras un código numérico en el reverso. Este código es el que debes ingresar a tu teléfono para quitarle el bloqueo a tu tarjeta SIM. In this hack you'll learn how to hack your Straight Talk SIM card. You'll need a PC with a working internet connection, a Straight Talk SIM card, and Strongly alcohol based cleaner for the phone.
